## Tik download video downloader for tik tok

Although you can save Facebook posts to see later, sometimes you want to download a video that you found on your feed. Whether it's a how-to video you want to save when you're working on a project, or a funny video you want to share with friends, you can download Facebook videos from your feed to your device in just a few simple steps. How to download a video from Facebook with a computer This trick only works on Facebook.com and does not work on the app, so you need to first go to Facebook in your browser. Then you will find the video you want to download and right-click on the video. Next, click the View Video URL option. A small box with the URL of the video appears. Copy the link, and then paste it into a new tab or the window's address bar. Then change the www in the address to mbasic. If the URL of the video is B change it to . Once you're done, tap Enter on your keyboard. This means changing the address to a mobile base interface address that you can use to download the video. If you've done it right, the screen will look a little funny as you try to see the Facebook app in your browser. Next, right-click the video and select Open Link in new tab from the menu. On the new tab, the video will not have any of the Facebook additions such as comments and a Like button. It will only be the video. From there, right click on the video and select Save Video as... from the menu. Then save it to your computer like any other video or photo. Now you can play the video using the video player you installed on your computer. How to download a Facebook video from the app If you don't have a computer, downloading from the app with your phone requires help. First, you need to download a third-party app to your phone that provides additional features to the Facebook app. For this demonstration we used the Friendly for Facebook app. Once the app is downloaded, you will be prompted to log in to your Facebook account. Sign in as usual. Then the app opens Facebook and it will look exactly like you're using the Facebook app. Next, find the video you want to download. At the bottom of the video post, you'll see a small alien icon next to the sharing button. Tap the alien icon. In the menu that appears, tap the video download... Option. That's it. The video is and stored on your phone. The recommendations of the editor TikTok has a lot of video content and sometimes you might want to download TikTok videos to your devices. Long ago, when people wanted to record the fleeting TV shows of their favorite shows, they had to use an empty tape and a video recorder to record it. Today, the process is a little easier. If you want to download and archive a Vimeo video for personal use, you can do so with online converters or downloadable Do. If you want to download YouTube videos, we also have a guide. But before proceeding, follow this warning. Please note that the laws on copying and distributing copyrighted material vary depending on the location. Copyright holders can also have their own guidelines on whether they are doing well when people make copies of their work. If you want to make a copy of a video on Vimeo, note the creator's attitude. Step 1: Visit KeepDownloading Screenshot The easiest way to download videos from Vimeo is to use an online converter. You must be careful which one you choose, as there are no the quality of downloads, and some types of these services may have intrusive ads. Our favorite is KeepDownloading as it has a simple and user-friendly interface. Step 2: Copy and paste the Vimeo Video URL Screenshot To get started, locate the Vimeo video you want to download and copy its URL from the address bar in your browser. Once it's ready on the clipboard, go back to KeepDownLoading and paste it into the white text box labeled Enter your URL here. Then simply click on the Download button to start the conversion. Step 3: Download your converted Vimeo video Once the conversion of your Vimeo video is complete, you will be taken to another screen where you will receive five buttons with resolution options: 1080p is the highest possible resolution. Then it is a simple thing to right-click on one of the buttons and select the Save Link option from the pop-up menu. Under File Name, rename the file to something more appropriate than the random number string, and navigate to a folder where you want to store it. In the Save as Type section, you may also need to set the file type as MP4 video or All Files if this is not automatically the file's intervention. Click Save and your video will download. Note: If you left-click the blue download buttons, the mp4 file opens in the browser. You can still download this by going to your browser menu and selecting the Save Page as option. This will display your file manager as before and allow you to rename the file and select a download destination. Alternative Method There are several options for those looking for an alternative method for downloading Vimeo videos. An online converter is still the best method, but some content creators make things even easier by including a download button above the description. With this button, the video will download into your download folder, but it is not available on every video. You can always install software locally to download the video for you. A free option is 4K Video Downloader. The program is easy to download and install on your PC or Mac and just as easy to use. First, make sure that you have copied the URL of the source video from your web browser to the clipboard. Next, open the app and click the Insert Link button in the upper-left corner. Then follow the on-screen instructions. Don't be fooled by the name. You can download your video in many other resolutions, even though it is also Supports. Editorial Recommendations
